

COMPLIANCE ENABLING ENVIRONMENTAL DISINFECTION

Incidin™ OxyWipe S

SPORICIDAL (*C. DIFFICILE*) READY-TO-USE SURFACE CLEANING AND DISINFECTION WIPES

The advanced formulation of Incidin™ OxyWipe S provides the benefits of a patented* hydrogen peroxide solution with broad spectrum efficacy. It is effective against a wide range of pathogens and leaves no active residues.

- Active ingredient decomposing into water and oxygen
- Sporicidal (*C. difficile*) & virucidal offering
- Excellent material compatibility
- Incidin OxyWipe S efficacy confirmed for liquid released from the wipe

Incidin OxyWipe S is EU-wide approved under BPR (Biocide Product Regulation 528/2012)

- Passing extensive toxicological, ecotoxicological and exposure assessment criteria of BPR
- Fulfilling highest safety standards, ensuring a high level of protection to human health and the environment
- Delivering sustained compliance

*European Patent EP1987121

Incidin™ OxyWipe S

SPORICIDAL (*C. DIFFICILE*) READY-TO-USE SURFACE CLEANING AND DISINFECTION WIPES

EFFECTIVE

- Broad spectrum efficacy

SAFE

- Active ingredient decomposes into water and oxygen
- Excellent material compatibility
- Passed extensive BPR assessment

CONVENIENT

- Cleans and disinfects
- Ready to use formats

MICROBIOLOGICAL PROPERTIES FOR MEDICAL DEVICE APPLICATION

EFFICACY UNDILUTED	CONTACT TIME
Disinfection of surfaces with mechanical action acc. to VAH method 2015	
Bactericidal, yeasticidal	15 min*
Fungicidal	30 min*
Mycobactericidal	30 min*
Bactericidal according to EN 13727 (2min) / EN 16615 (2 min*)	2 min*
Yeasticidal according to EN 13624 (15min) / EN 16615 (1min*)	15 min*
Fungicidal according to EN 13624 (30min) / EN 16615 (method) (5min*)	30 min*
Tuberculocidal according to EN 14348 (30min) / EN 16615 (method) (5min*)	30 min*
Mycobactericidal according to EN 14348 (30min) / EN 16615 (method) (5min*)	30 min*
Effective against enveloped viruses according to EN 14476	30 sec*
Limited spectrum virucidal according to EN 14476 (Adenovirus - 30sec, Norovirus - 15min)	15 min*/**
Virucidal according to EN 14476	30 min**
Sporicidal against <i>C. difficile</i> according to EN 17126	60 min**
Sporicidal against <i>C. difficile</i> according to EN 16615 (method) according to CEN TC216 prWI Oct 2020 / VAH method 19	15 min**
Effective against enveloped viruses according to RKI recommendation 10/2022	30 sec***
Limited spectrum virucidal	60 min***
Adenovirus	1 min***
Polyomavirus SV40	30 sec***
Rotavirus	15 sec***

* dirty conditions ** clean conditions *** DVV 2015 (suspension test)

MICROBIOLOGICAL PROPERTIES FOR BIOCIDES APPLICATION

EFFICACY UNDILUTED	CONTACT TIME
Bactericidal, yeasticidal	15 min**
Fungi	30 min**
Mycobacteria	30 min* / 30 min**
Bacterial Spores	30 min*
<i>Clostridium difficile</i>	15 min*
Viruses	30 min* / 30 min**

* clean conditions ** dirty conditions

MEDICAL DEVICE AND BIOCIDES USE SAFELY

Please read label and product information.

APPLICATION AREA

Medical Device: Broad spectrum ready to use cleaning and disinfection wipe for non-invasive, invasive and non immersible medical devices.

Biocide: PT02 - Disinfection of non-food contact surfaces in health care applications by wiping using impregnated RTU wipes.

INSTRUCTIONS FOR USE

Medical Device:

Take single wipe. Wet surface thoroughly, ensuring contact with entire surface. Let it dry and do not rinse. Do not reuse wipe: Disinfection can no longer be guaranteed. Close lid after use. Respect the indicated contact time and conditions for the required antimicrobial activity. If used under clean conditions, clean surface upfront (use new wipe for each step). The use of a cleaning and disinfection wipe does not replace regular cleaning. Do not use on surfaces sensitive to oxidative agents such as marble, copper or brass. For reprocessing of medical devices always observe manufacturers' instructions for use, incl. material compatibility. Terminal disinfection of semi-critical medical devices (i.e. probes & TEE probes): If immersion is not possible, disinfect the device by wiping as described above. Rinse thoroughly with water of drinking quality in this case after contact time elapsed.

Biocide:

Product is intended for cleaning and disinfection in one step. Always read the label or leaflet before use and follow all the instructions. When used under clean conditions: clean surface up front. Product should be applied to a dry surface. Wet surfaces completely. After use of the product allow surface to air dry. Do not rinse after use. Close container when not in use. Do not use wipes after dehydration. Throw away the container when empty. Do not use on surfaces sensitive to oxidative agents such as marble, copper or brass. Used wipes must be disposed in a closed container.

INGREDIENTS

100g contains the following active ingredient: 1.5g Hydrogen peroxide (CAS 7722-84-1)

STORAGE

Product should be stored in the original container between 5°C and 25°C in a cool, dry location out of direct sunlight.

Shelf life after first opening:

3 months.

FOR PROFESSIONAL USE ONLY.

Incidin™ OxyWipe S

PACKAGING AND ORDERING INFORMATION

PRODUCT	PACKAGING UNIT	ORDER CODE
Incidin™ OxyWipe S	6 x 100 wipes (20 x 20 cm)	3116040

THE BIOCIDAL PRODUCTS REGULATION (BPR), REGULATION (EU) 528/2012:

The BPR replaced the Biocidal Product Directive (BPD) on 1st September 2013 as the legislation responsible for placing biocidal active substances and products on the European Market.

As a regulation, it became legally binding for countries that fall within the scope of EU regulations - all European Union countries as well as Iceland, Liechtenstein, Norway and Switzerland (the European Free Trade Association countries).

The BPR offers a harmonised, centralised authorisation option for biocidal products at a European level versus the BPD. The BPR is designed to control the use of, and the placing on the market of biocidal products. It involves an assessment of a biocidal product's efficacy, toxicity, and the risk during use. Additionally, it requires robust data to prove the effectiveness and safety of the biocidal product, as well as a list of approved biocidal active substances and suppliers.
